

For Sale: Craftsman 1-HP Dust Collector

Sears Model #: 113.299780

Power: 115 VAC

Dimensions: 27 L x 15 W x 62 H (inches) with inflated bags

Base: Steel frame and base with wheels

Bag Clamp: Upper bag use metal quick-disconnect clamp. Lower bag ring just drops down into an internal groove (super-easy for clean-out)

Air Intake Port Size: 4-inch diameter

Condition: Minor surface rust. Works great. Heavy-duty canvas bags in good condition. It looks a little rough, but it's been used very little.

Sell Price: \$50 (original Sears retail cost was \$175)

Reason for selling: I previously purchased a much larger dust collector, and gave this one to family member who never used it and recently returned it. No space for it in my "stuffed" workshop. The surface rust accumulated due to being stored a couple years in his garage.
