Program for August 14 Meeting

Sherry Hockenberry Demonstrates Coloring on Wood

The program for the August 14th meeting will be a demonstration of coloring on wood by Sherry Hockenberry. Sherry does some unusual and striking coloring of plates, platters, and wide-rimmed bowls. The techniques she uses to obtain the end result might well amaze you. Chuck Billings saw Sheri present this demonstration to a packed house at a meeting of the Central Florida club last fall...it was very well received.

Cocoa Beach Library Woodturning Display

A big thank you to the following members who stepped forward when asked on very short notice to provide items and help with setting up the current display in the main case at the Cocoa Beach Library. We were contacted when that library had a last minute cancellation for the month of July.

Ray Conklin shows the AAW winning platter for the Technical award at the AAW Symposium for the club collaborative challenge. Ray and Jack Gregory are standing behind the lathe the club made for the collaborative challenge.

MEETINGS *The Space Coast Woodturners meet at the Faith Fellowship Church of Broadway, located at 2820 Business Center Blvd, Melbourne FL ... 32940. We meet 7:00 pm-9:00 pm the second Monday of each month. Visitors are welcome!*

SPACE COAST WOODTURNERS MINUTES FOR July 10, 2006

The meeting was called to order by President Jack Gregory at the Faith Fellowship Church 2820 Business Center Blvd Melbourne, Florida at 7:10pm July 10, 2006. There were 38 members and D Matlock, Joe LeFevre, Genie Jones, Chet Breurn, CJ Brewer, Skyler Brooks, Steven & Chauncay & Anthony Reeves.

Reports:

President Jack Gregory:

Ray Conklin was presented with the AAW winning platter for the Technical award at the AAW Symposium for the club collaborative challenge. The 5th Avenue Art Gallery is having a contest for a one-man show to be held in September. The Cocoa Beach library wanted another display of turned objects, which will be there the rest of July.

Vice President Chuck Billings:

August meeting demonstration will be Sherry Hockenberry on the coloring of platters. The September demonstration will be Gary West on building a kaleidoscope. .

Treasurer Harvey Driver

A Message From the President

Help Wanted: Newsletter editor.

Space Coast Woodturners has an immediate opening for the position of newsletter editor. The candidate should be a computer expert which means that he or she can recognize a computer two out of three times. The newsletter editor will need to have appropriate software to create the newsletter and post it to the Space Coast Woodturners website. The candidate should have some writing skills or experience. The candidate must be interested in helping keep SCWT a healthy, vibrant club. Please call Jack at 269-5855 if interested.

Just when I thought things were looking up, Paul Todd decides to pull up stakes and move to Tennessee!! So we will need a newsletter editor if we are to have a newsletter. John Armstrong has agreed to fill the gap for 1 month, for which I am grateful. If someone is willing to take on the job, Paul will work with you until he moves, so please let me know ASAP if you are interested.

Jack Gregory

From the Wood Pile

Southern Magnolia (*magnolia grandiflora*). The range of southern magnolia is from Virginia to Texas. The tree can grow to 90 feet in height. The sapwood is a yellowish white and the heart wood ranges from black to dark brown to red. The tree tends to be straight grained but some of the trees will crack when dried. The magnolia turns well and will accept most finishes and will spalt.

Cherry (*prunus serotina*). Cherry is found throughout the Eastern states. The sapwood is white and the heart wood is light to dark brown. The wood turns well, and finishes well when sanded to 400 grit and the wood is stable when dried.

TAPE DOCK by TOM WEBER

I hope to have one new DVD for rent this month. Depends on whether or not the Craft Supply order gets here in time, and if I can get the DVD and ready it for distribution.

Nothing new beyond that.

Just the usual plug for our sandpaper and faceplate sales. Remember, your purchases make the DVD purchases possible.

See you on the 14th.

Tom Weber

Message from the Newsletter Editor

Margaret, my wife, and I have been looking for property for some time. For several reasons, we could not find what we wanted in the Central Florida area so we started looking elsewhere. Eventually, through an arduous process, we settled on Crossville Tennessee which is in the east central region. During the first and second weeks of July, we went on our “great adventure” road trip and visited Crossville as a part of that trip. We looked at quite a few properties and we think we found where we want to live. In Crossville, we can buy acreage AND a nice home for what we can sell our current home for. The Crossville area has a pretty good woodturning club (Cumberland County TN, Woodturners www.cumberlandwoodturners.com) so I contacted a few of their members to get more accurate information about the area. As it turns out, two of the members are from Titusville. The area is beautiful and there is a lot of local wood that is excellent for turning.

I must say that it has been my privilege to serve the Space Coast Woodturners as the newsletter editor. I suppose that I could say that “it is a thankless job, but someone has to do it”, but that’s not the way I feel. I have seen that Space Coast Woodturners is group of people who are willing to share their knowledge, experiences and skills in woodturning with anyone. The members of our club are willing to go the extra mile and work with the newcomer to the art and help them. What I have enjoyed is the demonstrations, workshops, show and tell and the friendliness of the members. I will miss everyone!

Paul Todd

FOR SALE

Raffle Announcement

As announced at our last meeting (6-12-06) we are going to have a raffle . The prize you ask ? Well , two of the finest turning tools you will ever see . The AAW , for their 20th anniversary , came up with the idea of selling a “limited” collectors edition of a set of bowl gouges (1/2” and 3/8”). This is set # 117 of 500 . They are made only for this 20th occasion . You can go to the AAW website and read more . The handles are of selected cocobolo and the tool is M-4 steel . They are both signed and numbered . Value is \$260.00 + shipping.

The Raffle Rules are as follows:

1. We will sell only 100 tickets @ \$5.00 each. All proceeds go to our Club .
2. You must be a paid up Member of the Space Coast Woodturners to buy a ticket .
3. Each Member can only buy one ticket unless ...
4. If under 50 tickets are sold , then each of those people can have a chance of buying a second ticket .
5. If any tickets are left , any paid Member can enter a drawing to purchase a ticket at our Christmas Party.
6. Tickets will be sold at our Sept-Oct-Nov meetings ... See John Armstrong ... ticket #'s are 783814 thru 783913 ... If you want a certain # bring John cookies .
7. John will ask an HONEST person (that in itself will be a job) to draw the winning ticket . GOOD LUCK and DON'T pass this up!

John Armstrong

Raffle Gouges

These are the two Twentieth Anniversary Gouges that will be raffled.

TO:

The Chapter's Purposes

In addition to supporting the general purposes of the AMERICAN ASSOCIATION of WOODTURNERS, Inc., Space Coast Woodturners are to:

Provide a meeting place for local woodturners;

Share ideas and techniques regarding this craft;

Trade woods;

Exchange ideas about tools; and

Exhibit finished projects.
