***Business Meeting Adjourned***

We have two new DVD’s for rent this month. They are the AAW 2009 Symposium Techniques, Volumes 1 and 2. And are catalogued as D214 and D215 respectively.

As opposed to earlier editions, these two don’t present the usual listing of ‘famous’ turners. They instead feature lesser known personalities. (Lesser known to me at least!) However the skills demonstrated are of the usual high quality, and show such items as a spiked star turned inside of a cube, a pierced goblet, texturing, and some carved mini-vessels. And more.

Again, let me remind you that if you know what sandpaper you need, just give me a call or an email, and I’ll have it packaged separately for your pickup at the next meeting. We have H&L grits from 60 to 600 grit. Plus the ultra-fine sheets that range from 600 to 1500 grit, in packs of 5 (one of each grit), or 25 (5 of each grit).

Hope to see you on the 8th.
