

# Space Coast Woodturners

*Star Chapter Member of the American Association of Woodturners*

## Minutes of Space Coast Woodturners – April 11, 2012

Submitted by Dotty Pugh - Secretary

\* **President** Read Johnson sent an email to all club members informing them that the April meeting was going to be cancelled due to work on the meeting hall floor. A short meeting was to be held before the hands-on session on April 21. I was out of town so I don't know what was discussed.

### \*Vice President's Report –

The VP challenge for May will be using the letters, **J, K or L**. Get creative with this challenge and have fun.

### Treasurer's Report –

# SPACE COAST WOODTURNERS

## Notes from Tom Weber:

We have three new DVDs for rent this month! The first is D255, "SCWT Demo #20". It features Doug Thompson of Thompson Tools and his presentation on tool steels and sharpening. Also on this disc are our own Russ Bremer showing the different types of bottle stoppers, Ron Browning and his torus box, and Gene Gross giving his dissertation on what he learned (and purchased) at the latest woodturners symposium.

The next two are by Larry Fox, and concern the use of decorative inlay material, like turquoise or *Inlace*. He uses it as an inlay in D257, and as an 'outlay' in D256, where he uses it to make the rim of a platter.

Since this is not a regular meeting, I won't be bringing the DVD collection to the meeting.

*HOWEVER*, for this session, I will bring individual DVDs for those that request them. Look through our listings on the web site, pick out one (or two), and email me, and I'll sign them out and have them for you at the hands-on session. It'll be a first come, first served, so you may want to list a second disc in the event someone beats you to your first choice. (They will cost the usual buck, and will be due back in at the May meeting.)

Also if you want some CA glue or accelerator, same deal applies. (Except you don't have to return them next month.)

I will have the sandpaper, faceplates, and other like stuff at the session.

I have also restocked our supply of wax sheets for pen tube glueing. I'll bring them as well. These work with CA, epoxy, and polyurethane glues. Great stuff. Only \$1.50 per sheet, which will do about 200 or so regular 7mm pens.

If you have any DVDs already checked out, you may bring them to the hands-on, and I'll take them home and sign them back in. If you can't make it, no problem, just bring them to the May meeting. (There's no late charge for April.)

## The Chapter's Purposes,

In addition to supporting the general purposes of the AMERICAN ASSOCIATION of WOODTURNERS, Inc. are to:

1. Provide a meeting place for local woodturners;
2. Share ideas and techniques regarding this craft;
3. Trade woods;
4. Exchange ideas about tools; and
5. Exhibit finished projects.

The logo features the text "SPACE COAST WOODTURNERS" in a bold, black, serif font. The text is set against a background of a dark brown, textured surface that resembles wood grain or a woven pattern. The entire logo is enclosed within a double-line blue border. There are small, light-colored circular accents at the corners of the inner border.
